

Zoom Classes

What exactly are our Zoom classes?

Zoom classes are a great way to start or continue an exercise program from the comfort, privacy and safety of your home. Certified instructors will lead participants through various types of exercises – just not in person. This is all done through the computer or whatever device people prefer as long as they can access the Zoom App. Some use iPads, laptops, desk computers or cell phones. We coach you on exactly how to navigate your system to be able to participate. What we offer:

- Guide to setting up a home workout area (including what equipment may be used)
- Safe and effective workouts to help with Balance, Cardiovascular needs, Muscle strengthening and Range of motion
- Help navigating the Zoom software
- Social camaraderie as we chat and socialize before and after each class

SPRING, 2024 Session: April 1 – May 30

Registration below

Please note that registration for new students must be received before the class link can be given out.

Gentle Yoga: April 1 – May 20 (No class 5/27)

Various Yoga postures are performed seated (sometimes standing will be an option using the chair for support). Emphasis is on increasing strength, range of motion, overall body conditioning and balance. The format of the class includes a warm up with breathing techniques, the main yoga routine, and a final stretch along with a guided relaxation.

Mondays only 10:00 – 10:45am (no class 5/27)

8 classes - \$64.00 *Instructor: Linda*

Standing/Seated Total Body: April 9 – May 30

This class is gentler version of the above class where you will get a total body workout without the floor work. Instead we use chairs for seated abdominal moves and balance challenges. Hand weights (and sometimes an inflatable 9 – 12" ball) are also used. Postural muscles are highly focused on as well as leg strength to help with fall prevention.
